### Description

The EBA 4315 is equipped with the new, patented EASY-CUT blade activating bars for convenient and safe cutting. Comprehensive S.C.S safety package: hinged, electronically controlled safety guard on the front table; transparent safety cover on the rear table; main switch and safety lock with key; electronically controlled true two-hand operation; 24 volt control (low voltage); patented EBA safety drive; automatic blade return from every position; disc brake for instant blade stop; blade changing device with covered cutting edge; blade depth adjustment from the outside of the machine; easy blade change from the front of the machine without removing covers; cutting stick can be turned or replaced easily from the outside of the machine. Electro-mechanical blade drive. Cuts up to 500 sheets of paper (70 g/m<sup>2</sup>) or bound brochures up to 40 mm. Blade made of German high quality steel. Solid steel blade carrier. Adjustable blade guides made of hardened steel. Patented fast flick action clamp. Precision side lay. Spindle guided back gauge with hand crank. Digital measurement readout for back gauge positioning (cm or inches) on the front table. Optical cutting line with bright and durable LEDs. Solid all-metal construction. Designed as table top machine, a stand or a cabinet with storage shelf are available as an option (at an extra cost).

Quality "Made in Germany"
